

UFSM | DEPARTAMENTO DE FILOSOFIA | PPGFILOSOFIA

SEMESTRE:: 2024.2

DISCIPLINA :: FAF959 - Tópicos de Filosofia da Ciência II

HORÁRIO :: Quarta-feira, 08h-12h (60h)

PROFESSOR :: Marcos Fanton

E-mail::marcos.fanton@ufsm.br

**RAÇA, RACIALIZAÇÃO E RACISMO NA SAÚDE:
PROPOSTAS DE OPERACIONALIZAÇÃO CONCEITUAL**

***** Em construção *****

OBJETIVO (S) DO COMPONENTE

Esta disciplina pretende discutir o modo como as ciências da saúde, em particular a epidemiologia, utilizam as noções de raça e racismo para realizar estudos populacionais. Na Introdução da disciplina, será explorada a relação entre teoria e método nas ciências, com uma discussão específica sobre modelos e mecanismos. Na Primeira Parte, será discutida a incorporação de raça e racismo em teorias científicas a partir de processos históricos, sociais e políticos de racialização e de opressão. Na Segunda Parte, será analisada a operacionalização conceitual do racismo nas ciências da saúde por meio de modelos e métodos desenvolvidos na literatura, como determinantes sociais e políticos, teorias biopsicossociais e análise multinível.

CONSIDERAÇÕES GERAIS

- (a) Esta disciplina, assim como todo debate acadêmico, pauta-se pela integridade entre os participantes. Deverá haver, nesse sentido, respeito às opiniões e questões de cada um dos colegas e do professor, o que significa ouvi-las e/ou respondê-las com seriedade e caridade;
- (b) Questões relacionadas à ausência nas aulas e à avaliação seguirão o Regimento Geral da UFSM. Sugere-se a leitura atenta dos Guias e Manuais da PROGRAD/UFSM.
- (c) Trabalhos com plágios integrais ou "colagens" sobrepostas de trechos de parágrafos ou de frases de filósofos sem referência ou com construções a partir de inteligência artificial não serão tolerados e receberão nota mínima (0). A UFSM possui regulamentação específica sobre o tema, conforme Código de Ética e Convivências Discente (Resolução 017/2018).
- (d) Avisos relacionados à mudança de calendário ou de datas de avaliação serão realizados apenas em aula ou por e-mail.
- (e) Dúvidas, pedidos ou reclamações **não** serão respondidas por Messenger ou Whatsapp ou qualquer outra rede social. O e-mail e o chat do Moodle são os canais de comunicação exclusivos para isso.

METODOLOGIA

Aulas expositivas. Discussão e realização de atividades em sala de aula.

****A disciplina será ministrada de maneira híbrida (presencial e online)****

AVALIAÇÃO

1 apresentação em sala de aula

1 ensaio com tema relacionado aos tópicos e à literatura estudados na disciplina.

INTRODUÇÃO

1. Panorama de um programa de pesquisa
2. A relação entre teoria e método nas ciências: modelos, mecanismos e hipóteses

PARTE 1 - RAÇA E RACIALIZAÇÃO COMO UM PROCESSO HISTÓRICO E POLÍTICO

3. O debate sobre raça, racialização e racismo na filosofia
4. Raça como uma construção histórica e política
5. As relações entre raça e gênero
6. Raça e o desenvolvimento das ciências da saúde
7. Raça e racismo no Brasil I: cor, classe e *status* social e político
8. Raça e racismo no Brasil II: ciência, instituições e saúde

PARTE 2 - OPERACIONALIZAÇÃO CONCEITUAL DE RACISMO NA SAÚDE

9. Como unificar teoria e mensuração de racismo?
10. Racismo: dimensões, formas de mensuração e efeitos
11. Teorias biopsicossociais sobre racismo
12. Racismo e o paradigma dos determinantes sociais e políticos da saúde
13. Raça, racismo e epigenética
14. A influência da teoria interseccional para a epidemiologia
15. Encerramento do semestre
